Message from the Pro Chancellor and Chief Minister of Sarawak

Congratulations on your graduation today and well-deserved success.

Swinburne is a reputable Australian university and is ranked number 45 in the 2019 Top 50 Under 50 list of the QS World University Rankings. As graduates of Swinburne, I trust that you have been well-imbued with the attributes of 'Swinburne 2025 Vision' to enable you to become 'Future-Ready Learners' that are genuinely confident and enterprising to create an impact within the communities where you live or work.

You must have been taught to be well-versed in the values of 'Research with Impact' in order to be able to play a meaningful role in the transformation of industries and shape lives and communities, and be involved in 'Innovative Enterprises' where agility, resilience and market responsiveness will give one the edge over others in the constantly changing and increasingly challenging business and work environment.

For Sarawakians, it's an exciting time to be entering the workforce or starting your own business as Sarawak is working in earnest to transform itself into a digital economy and invests in Industry 4.0. I believe a tertiary education must not be just about obtaining a degree but also to enable you to contribute to our common efforts to transform the state into an economic power by 2030. Following your graduation, you are now ready to work on industrial projects, solve day-to-day challenges and enhance your professionalism in your chosen field. Welcome to all of you as new members of the Sarawak's professional workforce.

Throughout your university journey, I am confident that you have obtained an enriching experience which must have shaped your views and built your character. As a working adult, you must continue to uphold your personal and professional integrity and take responsibility for your actions. It is always a noble act to be able to appreciate the opportunities given to us and strive to give back to the community by using the knowledge and know-how we have obtained. In our pursuit of success, we must also not forget to lend a helping hand to the underprivileged among us in order to make life more meaningful.

I also encourage you to always care for the environment so that our future generations are able to reap what we sow. No less important in a multicultural Sarawak where peace and harmony have long existed, I wish for all of you that you will always work towards preserving this unique bond among our diverse people. Do extend our Sarawakian hospitality to everyone you meet regardless of

their background. Let us continue to advocate these values in building a progressive and developed state.

Today, you are able to stand tall and proud witnessed by your loved ones. Your graduation is also a celebration for your loved ones who have supported and encouraged you throughout your pursuit of higher education. Let us also take this opportunity to thank all of them as your success is their success.

To our graduates from abroad who will return to their home countries, I bid you 'Selamat Jalan' (farewell) and wish you all the best in your future endeavour. I am certain that you have made lifelong friendships and that your experience in Sarawak has been a positive one. Stay in touch with your alma mater and I hope that you will have fond memories of your time in Sarawak.

Thank you.

Pro Chancellor and
Chief Minister of Sarawak

Message from the Vice-Chancellor

I am delighted to welcome you here for this graduation ceremony.

Well done to all who are graduating today for successfully completing your course. At this time we must also acknowledge the Swinburne academic and professional staff who made your learning experience possible, as well as parents, spouses, siblings, partners and friends whose encouragement has played a crucial role in your success.

Today your graduation allows us to celebrate your achievements. You have fulfilled the requirements of a demanding course of study with focus and discipline and your reward is an excellent education.

Such an education is all the more important today because of the need to respond to a rapidly changing world. Within our knowledge-based society, many people are engaged in 'knowledge-based' work, across a range of fields and disciplines.

The achievement of high quality education and training positions you to attain greater prosperity and participate more fully in a dynamic knowledge-based global economy. Swinburne is consistently named as one of the top universities in the world according to the prestigious Academic Ranking of World Universities. Therefore, I hope you take pride in knowing that you graduate from Swinburne with a high-quality education, obtained

from a world-ranked university.

I strongly encourage all of you who graduate today to address the new challenges that face your community and make a positive contribution. I urge you to seize these opportunities and help lead our society into a promising future.

At Swinburne we encourage our students to embrace the notion that we are all learners for life. And so, I anticipate that your graduation will not represent an end-point to your educational adventures. We look forward to welcoming you back to Swinburne in the future, either in-person or through one of many online learning opportunities, to help you further your knowledge.

We are also delighted to welcome you as Swinburne alumni and will take pride in hearing of your achievements. I sincerely wish you the very best for the future and, wherever life adventures take you, invite you to stay in touch with your Swinburne community.

Message from the Chairman of the Board of Directors and University Council

On behalf of the Board of Directors and University Council, heartiest congratulations to all graduates.

Together with your family members, we are proud to witness this significant event today. Your hard work and dedication have culminated in the awarding of your Swinburne testamur that will take you places. For many of you, this is where your career begins. You will encounter many challenges ahead but be bold and confident in facing them for your personalised, industry focussed education at Swinburne has prepared you to strive through life's obstacles.

Swinburne graduates from the Sarawak campus have always done the university proud. Our graduates are employed by multinational organisations around the world in various industries such as financial services, manufacturing, oil and gas, construction, computing, transportation, pharmaceutical and others. It is also worth noting that our graduates are hired by the Top 100 global brands. This is because our graduates are awarded the same internationally recognised degree from its main campus in Melbourne that allows for wide recognition across the globe.

Your family, friends and dedicated staff of the university have also played a big role in your success, lest we forget. Therefore, I urge you to continue making them proud by contributing your knowledge and skills to serve the community at large. Your career path might not be as clear and direct as you expect it to be but the key is to remain curious and open to opportunities, as well as to consciously listen and learn from your colleagues and your environment.

Your graduation today should be recognised for its immense significance as it symbolises your personal commitment and sacrifices. It is definitely not an end goal in itself but a launching point for further achievements. I hope your experience at Swinburne would open many doors of opportunity in the future.

As members of the Board of Directors and University Council of Swinburne Sarawak, we will continue to strive for excellence as part of our commitment to produce highly skilled, knowledgeable and future-ready graduates who are able to contribute to the State's development.

Once again, congratulations and all the best.

**The Honourable
Tan Sri Datuk Amar (Dr) Haji
Mohamad Morshidi
Bin Abdul Ghani**

History of the university

The Swinburnes lived for many generations in Northumberland, in the north of England. In early times, the family owned a castle on the banks of the Swin Burn, the brook of the boars. By 1245 the Swinburne coat of arms was 'Gules: three boars heads argent'.

George Swinburne arrived in Melbourne in 1886, aged twenty-five. His early days in Melbourne were spent setting up gas plants and bringing gas-light to the cities and towns. As his business stature increased, he entered State Parliament and became a minister.

Swinburne was established as the Eastern Suburbs Technical College by George Swinburne and the first students were enrolled in 1909, when classes began in carpentry, plumbing and blacksmithing. In 1913 the institution changed its name to Swinburne Technical College, to commemorate the Honourable George Swinburne. Soon afterwards, a boys' junior technical school and the first girls' technical school were established.

Following an extensive reorganisation of advanced education in Victoria in the late 1970s, Swinburne was given the power to grant bachelor degrees. The first of these was awarded at a conferring ceremony held on 21 May 1981 at the Camberwell Civic Centre.

In 1992, Swinburne achieved university status with the passage by the Parliament of Victoria of the *Swinburne University of Technology Act*. This marked not only Swinburne's distinguished history as a provider of further education, but the beginning of a new period of growth and innovation for Swinburne.

In recent years, Swinburne has progressed to become one of the world's leading research-intensive teaching universities and a leader in online education, expanding the educational opportunities available to a new generation of learners.

Swinburne's emphasis is on high-quality, engaged teaching and research in science, technology and innovation – teaching and research that makes a difference in the lives of individuals and contributes to national economic and social objectives.

Swinburne holds a unique place among educational institutions in Australia in the link that persists between it and the founder and his family. The conferring of a modification of the family's coat of arms preserves and strengthens that link.

The arms

The basic colours of red and white, and the cinquefoils charged on the shield, commemorate the arms of the Swinburne family.

The Crest

The demi-Boar and the cinquefoil perpetuate the Swinburne connection; the book is symbolic of learning.

The motto

The College of Arms' translation of the motto is: Achievement through learning.

The Flag

The basic colours of red and white with cinquefoils.

Establishment and History of the Sarawak Campus

Swinburne University of Technology Sarawak Campus is the result of a successful combination of goals: Malaysia's goal of becoming an educational centre of excellence, Sarawak's goal of increasing its technical workforce and Swinburne University of Technology Australia's goal of globalising its operations to provide its students with additional international opportunities while providing quality Australian degrees at affordable costs for students from across Asia.

The Sarawak campus was established in Kuching, the capital city of the Malaysian state of Sarawak, in 2000. Originally known as Swinburne Sarawak Institute of Technology, it was awarded university status as a foreign branch campus university by the Malaysian Government in 2004 and became Swinburne University of Technology Sarawak Campus. The university therefore has dual nationality, being both a branch of the Australian university as well as a Malaysian university. Degrees awarded are Australian and testamurs are indistinguishable from those awarded in Australia.

The university is jointly owned by Swinburne University of Technology Australia and the Sarawak Government through Yayasan Sarawak (Sarawak Foundation) and Sarawak Higher Education Foundation.

Swinburne Sarawak was founded as part of the Government of Sarawak's strategy to deliver skilled human capital to the engineering and technical fields for the industrialisation needs of the state. The Australian partner in this venture, Swinburne University of Technology, is well-known in Australia for its business and technical education and for close links with industry. The university wants to make the same high standard of education available to young people abroad.

Undergraduate degrees offered at Swinburne Sarawak include courses in the areas of Engineering, Science, Business, Computing and Design including double degrees. The university also offers postgraduate research programs at PhD and Masters levels in these disciplines.

The School of Foundation Studies offers a wide range of preparatory and English language enhancement programs.

The 16.5-acre city campus is only about 15 minutes from the central waterfront area of Kuching. Student numbers have grown from the original intake of about 130 students in August 2000 to about 4600 currently. International students currently come from more than 60 countries.

The Sarawak campus was expanded in 2008. Completion of the RM110 million project sees eight new custom designed buildings added to the campus, increasing the total number of buildings to 12. These greatly improve teaching, research, student accommodation and other facilities as well as permit further expansion of courses and students, particularly in engineering and science.

The Mace and the Chairs

In universities a mace is used as a symbol of institutional authority and it is carried in procession before the Chancellor, and here in Kuching, the Pro Chancellor, as a symbolic weapon of protection and power.

Along with academic dress and graduation ceremonies, the mace is part of the ancient ceremonial that marks the authority of the University and its chief office bearers, the importance of learning and knowledge, and which welcomes the graduate into a special and select group of learned men and women. The ceremony marks the formal entrance of the graduate, who as a student, is considered 'in training', into the academic family of the university. The Mace accompanies the Chancellor, the Pro Chancellor and the academic procession into the hall and remains on view, mounted on a stand, during the ceremony. At the end of the ceremony it is carried out in the procession.

The Swinburne Sarawak Mace Suite is a sister suite to that used by Swinburne Melbourne. The Melbourne suite is fabricated in Queensland Silk Oak, a beautiful Australian timber. The Sarawak suite is fabricated in Belian, a beautiful and revered Sarawakian timber. In fact, part of the timber in the mace comes from the family house of YBhg Datu (Dr) Haji Abdul Rashid Bin Mohd Azis, a foundation member of the University, creating a living link between Sarawak's rich historical past and the future promise of education and development.

A finial, a type of crown crafted in solid silver and gold is mounted at the top of the mace. The Australian crown contains a miniature carving of the University crest. The carving inside the Sarawakian crown has incorporated the hornbill, the State emblem, centered in a wreath of Eucalyptus and Belian leaves, to symbolise the blending of two cultures and two histories. In both cases the carving incorporates a book with a heraldic cinquefoil, from the French '*cinque feuilles*' meaning 'five leaves', which dates from the family crest of George Swinburne, the University's founder. The book is a symbol of knowledge and learning incorporated into the Swinburne crest by the Royal College of Heraldry, London. The tail of the mace is finished in solid silver.

The two ceremonial chairs are for the Chancellor and the Pro Chancellor. The university motto: '*Factum per Literas*' which refers to achievement through learning, is part of a ribbon carved into the back of the chairs. Small silver stars of the Southern Cross constellation, also contained in heraldic form in the University crest, are mounted into the backs of the chairs. The chairs sit to the front of the dais in the traditional attitude of enthronement.

Distinguished artisans and craftspeople involved in the project with the designer were:

- Hendrik Forster, silversmith, who crafted the silver and gold crown and the silver mace stand brackets,
- Ian Higgs, cabinetmaker, who created the timber components of the mace, mace stand and chairs,
- Marion Marshall, silversmith, who crafted the stock tail and the stars of the Southern Cross,
- Sue Wraight, netsuke carver, who created the hornbill miniature carving.

Professor Roger Simpson and Ms Monique Jedwab contributed to project management and detailing.

The ceremonial items of the office of the Chancellor and Pro Chancellor of Swinburne Sarawak were designed by Emeritus Professor Helmut Lueckenhausen, the former Pro Vice-Chancellor and Chief Executive Officer Swinburne Sarawak.

Ian Higgs made the timber components at the training workshop of the Sarawak Timber Industry Development Corporation at Kota Samarahan, supported by members of STIDC and particularly through the kind offices of YBhg Datu Haji Len Talif Bin Salleh, the former General Manager.

Academic regalia

The academic dress worn at Swinburne today is a modification of everyday dress worn by scholars and teachers in the Middle Ages and the Renaissance. It consists of a gown and a scarf-like stole or hood, which is a remnant of the cowl that was once worn to cover the head and shoulders to keep off the rain and snow. Trencher caps or bonnets are worn as indicated below, with the tassel down over the left eye and in a vertical position.

The style of academic dress adopted by Swinburne University of Technology is based on that of the University of Oxford.

Honorary doctorate

A cardinal red gown with silver grey front and sleeve facings. The hood is cardinal red, fully lined in silver grey and is worn with grey showing on both shoulders. A tudor bonnet with a silver cord and tassel is worn.

Honorary master degree

A cardinal red gown with silver-grey front facings. The hood is cardinal red, fully lined in silver grey and is worn with silver grey showing on both shoulders. A black trencher with a silver cord and tassel is worn.

Doctor of philosophy

A black gown faced with chilli red and silver grey. The hood is chilli red, fully lined in silver grey and is worn with silver grey showing on both shoulders. A tudor bonnet with a scarlet cord and tassel is worn.

Professional doctorate

A black gown faced with chilli red and the discipline colour. The hood is chilli red, fully lined in the discipline colour, and is worn with the discipline colour showing on both shoulders. A tudor bonnet with a scarlet cord and tassel is worn.

Double master honours degree

A black master gown, hood and trencher. The hood is black, fully lined with the colours of both disciplines, and laced with a silver braid. It is worn with the colours showing on both shoulders.

Double master degree

A black master gown, hood and trencher. The hood is black, and fully lined with the colours of both disciplines. It is worn with the colours showing on both shoulders.

Master honours degree

A black master gown, hood and trencher. The hood is black, fully lined with the discipline colour, and laced with a silver braid. It is worn with the colours showing on both shoulders.

Master degree

A black master gown, hood and trencher. The hood is black, fully lined with the discipline colour, and is worn with the colour showing on both shoulders.

Graduate diploma

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on both sides.

Graduate certificate

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on the left hand side.

Honours degree

A black gown, hood and trencher. The hood is black, half lined with the discipline colour and laced with a silver braid, and is worn with the colour showing on the left-hand side.

Double degree

A black gown, hood and trencher. The hood is black, half lined with the colours of both disciplines, and is worn with the colours showing on the left-hand side.

Bachelor degree

A black gown, hood and trencher. The hood is black, half lined with the discipline colour, and is worn with the colour showing on the left-hand side.

Dual award

A black gown, hood and trencher. The hood is black, half lined with the colour of the Higher Education discipline and the reverse (black) edge of the right-hand side trimmed with the colour of the Vocational Education discipline. The hood is worn with the Higher Education colour showing on the left-hand side and the Vocational Education trim on the right-hand side.

Associate degree

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on the left-hand side.

Advanced diploma, associate diploma and diploma

A black gown and stole. The stole is black, lined with the discipline colour, the right-hand edge being trimmed with white cloth, and is worn with the colour and white trim showing on the right-hand side.

Advanced certificate, certificate IV, certificate III and apprenticeship

A black gown is worn.

Indigenous stoles

A stole in the colours of the Aboriginal Australian flag can be worn by indigenous graduands and staff at graduation ceremonies. The stole is worn under any academic colours, or where there are no academic colours (i.e. certificate and apprenticeship recipients) the stole is worn under the gown.

Ceremonial regalia

Chancellor

A black gown of English Queen's Counsel style, with ten gold bands on the sleeves and scarlet satin trimmings on the front, collar and bottom edge of the gown. A black velvet trencher with gold trim on the base and a gold braid and tassel is worn.

Selamat datang ke Swinburne University of Technology Sarawak Campus. Maklumat berikut disediakan bertujuan bagi memastikan keselesaan, keselamatan dan kesejahteraan semua tetamu ketika majlis graduasi. Para tetamu diminta untuk membacanya sebelum majlis bermula.

Semua tetamu dinasihatkan untuk duduk di tempat yang telah disediakan 15 minit sebelum majlis bermula. Majlis ini dijangka akan berlangsung selama lebih kurang 90 minit.

Pengiring tetamu akan mengiringi anda ke tempat duduk tetamu dan akan membantu anda dengan sebarang maklumat, bantuan dan nasihat jika diperlukan.

Para tetamu adalah diminta untuk kekal berada di tempat duduk di sepanjang majlis sedang berlangsung. Sewaktu perarakan akademik dan juga pihak Majlis Tertinggi Universiti memasuki dewan, semua tetamu dan graduan diminta berdiri dan kekal berdiri sehingga selesai menyanyikan lagu kebangsaan.

Sepertimana kebiasaan di majlis graduasi, tepukan gemuruh adalah disyorkan apabila nama setiap graduan diumumkan. Kami amat menggalakkan agar semua tetamu dan graduan dapat mengekalkan tradisi ini.

Mohon ambil perhatian bahawa seluruh perjalanan majlis ini akan dirakam melalui video dan juga foto.

Sila pastikan semua telefon mudah alih dimatikan atau dalam mod senyap semasa majlis berlangsung.

Sekiranya berlaku pengumuman amaran kecemasan, sila keluar dari dewan dengan segera menurut arahan yang disediakan.

සිටින්නන්ගේ සාකච්ඡා විශ්වවිද්‍යාලයේ ඔබේ සාදරයෙන් පිළිගනී. පහත සඳහන් කර ඇති තොරතුරු, උපාධි ප්‍රදානයත් සමගදී සියළුම අමුත්තන්ගේ පහසුව, ආරක්‍ෂාව සහ ආස්වාදය සහතික කිරීමට උපකාරවේ. එමනිසා, උත්සවයට පෙර මෙය කියවීම සඳහා කාලය වෙන් කර ගන්න.

සියළුම අමුත්තන් උත්සවය ඇරඹීමට මිනිත්තු 15කට පෙර අසුන්ගත යුතුය. උත්සවය අවසන් වීමට මිනිත්තු 90ක පමණ කාලයක් ගතවේ.

ආසන පෙත්වන අත විසින් ඔබට අමුත්තන් අසුන් ගන්නා ප්‍රදේශය පෙත්වන අතර අවසන් තොරතුරු උපකාර සහ උපදෙස් ඔබ හට ලබාදෙනු ඇත.

උත්සවය පවත්වන මුළු කාලය පුරාම සිය අසුන්වල රැඳී සිටින ලෙස අමුත්තන්ගෙන් ඉල්ලා සිටීමු. අධ්‍යාපනික කාර්යය මණ්ඩලය භාලාව වෙත පැමිණෙන අවස්ථාවේ සිට ජාතික ගීය ගායනා කර අවසන් වන තෙක්, අමුත්තන් සහ උපාධිකාරීන් හට සිටියෙන් සිටින ලෙස ඉල්ලා සිටීමු.

අපගේ උපාධි ලබාදීමේ චාරිත්‍රය වන්නේ එක් එක් උපාධිකාරීන්ගේ නම කථා කරන විට ඔවුන්ගේ දිවියේ සියළුම අමුත්තන් සහ උපාධිකාරීන්ව මෙම සම්ප්‍රදාය අනුව කටයුතු කරන ලෙසට අවි උනන්දු කරමු.

උත්සවය පාහැරවන සිටීම සහ විවිධයේ පවතින කිරීම කරන බව කරුණාවෙන් සටහන් කර ගන්න.

උපාධි ප්‍රදානයත් සමග අවස්ථාවේදී සියළුම පංතේ දුරකථන නිවා තිබෙන බවට වගබලා ගන්න.

හදිසියේ භාලාවෙන් ඉවත් කිරීමක් නිවේදනය කළ අවස්ථාවක, කරුණාකර උපදෙස් අනුව කටයුතු කරමින් ලබාදී ඇති මාර්ගෝපදේශ අනුව හැකි විගණ ස්ථානයක් පිටත්ව යන්න.

Swinburne Research

Swinburne has consistently pursued a policy of ensuring quality and critical mass by investing resources in areas of research concentration. Swinburne actively encourages and values its international and industry connections which enrich and enhance the research efforts and careers of our academic staff and students alike.

Graduates listed below have each made a valuable contribution to Swinburne and their respective fields of research.

Graduates for the awards from Swinburne Research will be presented by the Deputy Vice-Chancellor & Chief Executive Officer, Professor John Wilson.

Thesis Title: The relationship between achievement in second language acquisition and parental involvement: A case study of multilingual primary school learners in Sabah studying Mandarin.

The project considers learning Mandarin Chinese as a second or additional language by non-Chinese children and investigates parental involvement in relation to their academic achievement. The aim is to identify pedagogical strategies non-Chinese speaking parents used to support their children through interactions in the home context. This mixed method research collected data in five phases from 11 Chinese vernacular schools in Kota Kinabalu, Sabah. The study identifies usable strategies parents and teachers can adopt to support children in their process of learning Mandarin Chinese. Findings of this project add knowledge to the fields of multilingualism and applied linguistics.

Thesis Title: Behaviour of Piles Subject to Detrimental Tidal-induced Riverbank Soil Movements

Geotechnical centrifuge model tests have been carried out to investigate the effects of tidal fluctuation induced detrimental soil movements on the free-headed single pile as well as capped-head pile groups. PIV, an image processing technique has also been employed to measure the soil movement profiles during the tests. A new analytical approach has been established so that the remedial costs for the potential damages to riverine infrastructure can be minimised and public safety will be safeguarded.

Yeu Yee Lee

Thesis Title: An investigation and enhancement of thermal performance in a heat pipe and its thermal modeling application

The fundamentals of evaporation and condensation in porous media as they happen in heat pipes were studied. Extensive experimental investigations and physical modelling of evaporation from porous media were carried out. An analytical solution for film condensation was developed by taking into consideration the two-phase zone at the border between the liquid and gaseous zones. Methods were presented for determinations of the effective thermal conductivities and the film thickness during film condensation from experimental data. The findings can be used in areas with the phase transition in porous media, such as geothermal energy, drying technology, and nuclear energy.
