| CSS305 | Applied Data Science in Python | CSS101 & CSS208 & CSS207 | |

How to use your Course Planner

Refer to the below table to help explain what units are required each semester throughout your course. The units in your planner are colour coded to assist you with mapping out your studies.

Course Information

Each unit is equivalent to 12.5 credit points. To qualify for the award of this course, students must complete 18 units + Industry training (225 credit points) comprising of:

14 Core Units

175 credit points A set of compulsory units you MUST complete as part of your Course.

4 Elective Units

50 credit points A set of elective units you MUST complete as part of your specialization.

Industry Training 0 credit points

Students need to complete 3 months internship as a prerequisite to graduate

General Studies/ Mata Pelajaran Umum

0 credit point

A set of compulsory units to complete as a pre-requisite to graduate.

All commencing students of Master, Degree, Diploma and Foundation courses will be automatically registered for the Academic Integrity Training Module in the first semester (Note: Students articulating from Foundation Studies are expected to undertake this unit as a refresher). There are 4 topics in this online module that are recommended for completion during Week 1-4 of your commencing study period. At the end of this module, students are required to complete a guiz comprised of 10 questions and achieve a score of at least 90%.

Ministry of Education requires that all NEW Cohorts pursuing Degree course (International and Malaysian) students must take the MPU units as a prerequisite for the award of their degree.

- Malaysian students: Must take and pass the units as a prerequisite for the award of their degree.
- International students: Must attempt all coursework and final exam as a prerequisite for the award of their degree.
